**Re: Notice of *Ex Parte* Presentation in Revision of Part 15 of the Commission's Rules Regarding
Ultra-Wideband Transmission Systems (Docket No. 98-153)**

Dear Secretary Dortch:

Pursuant to Section 1.1206(b) of the Commission's Rules, 47 CFR § 1.1206(b), notice is hereby provided in the above-referenced docket regarding an *ex parte* presentation to staff of the FCC's Office of Engineering & Technology by Delphi Corporation ("Delphi") on July 8, 2004. Participating on behalf of the Office of Engineering & Technology were Julius Knapp, John Reed, Ronald Chase and Steve Jones (via videophone). Representing Delphi were Stephen Alland, Manager, Advanced Radar Systems Department, Nicholas Morenc, a consultant to Delphi (and former Manager, Advanced Systems Radar Department), and Robert Kelly and Mark Johnson of Squire, Sanders & Dempsey L.L.P., counsel to Delphi.

Consistent with Delphi's previous filings in the above-named docket, Delphi reiterated its support for the Commission proposal to reword the peak to average power limits as specified in Section 15.35(b) of the Commission's Rules (47 C.F.R. § 15.35(b)), particularly as applied to the 16.2 to 17.7 GHz band. The attendees also discussed the possible date for release of a *Second Report and Order* in the above-named docket.
